We like to think Number Nurses® make the world of accounting and admin as painless as possible.

We help you focus on the possibilities NOT the admin

Let a
Number
Nurse
STOP your
clock

NUMBERNURSES®

Prepare for a paperwork procedure

Spending your weekends doing the books and filling in forms is as about as much fun as reading a 1992 women's magazine in a doctor's waiting room.

We know you've got much better things to do and a Number Nurse is scrubbed up and ready to assist in an admin-ectomy.

Whether your business is in need of intensive care or just a wee sticking plaster – **a Number Nurse® is on-call to help.**

We're here to relieve the pain

Sneak a peek in a Number Nurse medical kit

You've progressed from manual to electric hand tools and your Number Nurse has switched from out-of-date paper files to the hottest smart device apps. That adds up to less time in the office and improved profits for you.

You'll have techie tools that are so easy to use – you'll be able to take care of yourself after a few quick lessons.

- + Quotes and estimates
- + Invoicing
- + Purchase orders
- + Job management
- + Photo Storage
- + GST returns
- + Stock management
- + Cash flow forecasting

Keeping administration systems fit and healthy will reduce nasty expenses incurred when payments are late and those stop heart palpitations when meeting tax compliance requirements.

Work in the clouds

The latest apps are compatible with each other and you won't need to worry about repetitively entering information over and over again to complete different tasks.

The latest builders' software, designed for Kiwi companies, surpasses all other trade software and it is compatible with Xero.

You'll love features that reduce time spent filling in spreadsheets and forms – giving you more time for the things you love.

The cloud-based software manages quotes, supplier price lists, orders, invoicing, timesheets and even forecasting

Your Number Nurse is always on call to mop your brow, answer your questions and look after any little accidents that you inflict on your admin, bookkeeping and systems.

Number Nurses® will call on specialists should you require intensive care.
